

RETAIL BANKING DIGITAL CHANNEL - REQUEST FOR PROPOSAL

1. INTRODUCTION

This Request for Proposal is issued by Meridian Bank for the supply of a digital banking channel. Meridian Bank serves 4.2 million retail customers across 11 states and has operated since 1974. Bidders should read all sections carefully.

2. CUSTOMER MANAGEMENT

2.1 Authentication

The customer shall login using the registered mobile number.

The system shall support two-factor authentication for all customer logins.

2.2 Account Information

The system shall allow customers to view their account balance.

Customers shall be able to download their account statement in PDF format.

3. TRANSACTIONS

3.1 Fund Transfer

To reduce fraudulent transactions, the system shall require additional verification for high-value transfers.

The system shall allow customers to schedule future-dated transfers.

3.2 Notifications

Customers shall receive an email notification for transactions above 1 lakh rupees.

The system shall send an SMS notification after a successful transaction.

Note: Meridian Bank's existing notification platform is provided by a third party under a contract that expires in 2027.

4. REPORTING

4.1 Operational Reports

The system shall allow administrators to generate monthly transaction reports.

Reports shall be exportable in Excel format.

The system shall retain transaction reports for a minimum period of seven years.

5. SERVICE LEVELS

The solution shall be available 99.5% of the time measured monthly.

The bidder shall provide support between 08:00 and 20:00 on working days.

6. COMMERCIAL TERMS

Bids must be submitted before 17:00 on 30 November. Late bids will be rejected.

Prices shall be quoted in Indian Rupees and shall remain valid for 120 days.

7. SECURITY

The system shall restrict administrative functions to authorised users.

All customer data shall be encrypted in transit and at rest.

8. EVALUATION

Proposals will be evaluated on technical merit and commercial competitiveness.
